## Transforming Financial Operations into Strategic Business Advantages

I don't just manage numbers - I architect financial systems that scale. With 7+ years navigating high-velocity e-commerce environments at Noon and Flipkart, I've mastered the art of turning complex vendor ecosystems into streamlined profit centers.

### Experience

#### Noon E-Commerce India Pvt Ltd

April 2024 to Present

Senior Executive Finance

- Oversee end-to-end **vendor payment operations** exceeding **AED 200M monthly** across a network of **400+ suppliers**, ensuring accuracy, compliance, and timely disbursements.
- Implemented **process automation via Google Apps Script**, enabling bulk SOA request emails, performance tracking, and summary reporting – improving efficiency and visibility.
- Conduct detailed **reconciliations and statement of accounts (SOA) reviews**, resolving variances and maintaining vendor ledger accuracy.
- Partner with **commercial, operations, and treasury teams** to streamline financial workflows and strengthen control frameworks.
- Manage **progressive rebate data** and agreement tracking for management reporting and audit purposes.
- Ensure **adherence to internal controls and audit requirements**, supporting accuracy and compliance across the accounts payable function.
