Driving Finance Operations Through Automation, Process Excellence & Scalable Controls

Assistant Manager - Finance with 7+ years of progressive experience across Finance Operations, Accounts Payable, Vendor Management, Financial Controls, and Process Automation within high-growth e-commerce organizations. Proven expertise in managing monthly vendor payments exceeding AED 400M+ across UAE & KSA operations, driving reconciliation accuracy, strengthening internal controls, and designing automation solutions using Google Apps Script. Partner with Commercial, Treasury, Procurement, and Operations teams to improve financial efficiency and support strategic decision-making. Currently pursuing ACCA to expand expertise in Financial Management and Commercial Finance.

Experience

Noon E-Commerce India Pvt Ltd January 2026 – Present
Assistant Manager Finance

Senior Executive Finance April 2024 – January 2026

- Manage end-to-end vendor payment operations exceeding **AED 400M+ monthly** across UAE & KSA business entities while ensuring timely and accurate disbursements.
- Lead reconciliation of vendor statements, rebates, credit notes, pricing discrepancies and payment variances across multiple business verticals.
- Designed and implemented Google Apps Script-based automation for SOA collection, reminder workflows and finance reporting, significantly reducing manual effort.
- Partner with Commercial, Treasury, Procurement and Operations leaders to resolve high-value financial discrepancies, optimize payment governance and support strategic decision-making.
- Drive continuous process improvement initiatives to strengthen internal controls and enhance finance operational efficiency.
- Support month-end close, audit requirements, management reporting and compliance across Accounts Payable processes.
- Lead knowledge transfer, onboarding and process standardization initiatives for new team members while driving continuous operational excellence.

Instakart Services Pvt. Ltd. (FLIPKART) September 2022 – April 2024
Executive

- Managed procurement and distribution operations across 1600+ North Zone hubs, ensuring seamless supply chain execution.
- Directed a 9-member team, establishing KPI reporting mechanisms that directly improved operational efficiency and reduced delivery bottlenecks.
- Developed and deployed an automated query resolution tool, cutting escalation turnaround time by 80 %.

R.K. Automobiles Pvt. Ltd. March 2021 – September 2022
Accounts Executive

- Collaborating with internal teams to ensure that the projects are delivered on time and within budget.
- Managing Inventory accounting and helping in managing Warehouse.
- Providing exceptional customer service to clients.

Fox I Vision Screening Services Pvt. Ltd. August 2019 – March 2021
Backend Executive

- Reviewed investigation reports for profile discrepancies or potential fraud, escalating high-risk cases directly to partner insurance companies.
- Managed Field Executives for the Entire North Zone and adhered to the best Closing with 99% closing within the given TAT.

Technical Skills

- **Custom ERP Systems**
- **Workflow Automation**
- **Google Workspace**
- **Advanced Excel**
- **Data Reconciliation**
- **Financial Dashboarding**
- **Google Apps Script**

Education

ACCA (In Progress)	Association of Chartered Certified Accountants
Master of Business Administration	Indira Gandhi National Open University (IGNOU)
Bachelor of Commerce (Hons)	University of Delhi
Diploma in Financial Accounting	Sharp Computers

Projects

SOA Automation Engine & Vendor Reminder System

- Designed a Google Apps Script-based automated SOA request workflow and escalation logic for monthly vendor statement collection.
- Implemented scheduled reminder emails with status tracking, reducing manual follow-up time by 98 % and streamlining reconciliation activities.

Invoice Finder Automation

- Built an automation tool to identify and organize vendor invoices from Google Drive.
- Eliminated manual invoice searches by categorizing files vendor-wise.
- Improved accessibility of supporting documents during reconciliation and audits.

Finance Reconciliation Dashboard

- Created centralized reconciliation trackers to monitor payment status and vendor balances.
- Improved tracking of outstanding invoices, variances, and reconciliation progress.
- Enhanced reporting accuracy for finance operations.

Zero Cost Discrepancy Initiative
Process Improvement

- Identified recurring cost mismatch issues impacting vendor reconciliation.
- Collaborated with cross-functional stakeholders to shift discrepancy resolution to the inwarding stage.
- Reduced downstream finance exceptions through process improvement recommendations.

Quantity Variance Resolution Project
Finance Operations

- Participated in identifying and resolving quantity variance issues impacting vendor settlements.
- Worked with Operations and Commercial teams to improve transaction accuracy.
- Helped strengthen payment governance by reducing recurring reconciliation discrepancies.
